

Wasco Union High School District

18 Modular Classrooms and 2 Modular Restroom.

Project Timeline: August 2006 – Sept 2008.

Project Size: 20,000

Scope of work: JTS Construction was the General Contractor to provide site work for the addition of 9 modular classrooms and 1 modular bathroom manufactured by JTS Modular. The scope included site demolition, underground utilities, wrought iron fencing, masonry, grading and excavation, concrete foundations, chain link fencing, landscaping, asphalt parking lot paving and striping, concrete flatwork, and building fire alarm. The modular building manufactured by JTS Modular included elastomeric exterior finishes, tackable wallboard, carpeting, and acoustical ceiling interior finishes, plumbing fixtures, lighting, and HVAC units.
